DWR RELEASES PROPOSITION 50
2004 WATER USE EFFICIENCY
MODIFIED PROPOSAL SOLICITATION PACKAGE

SACRAMENTO - The Department of Water Resources (DWR) has released its draft version of the Proposition 50 Water Use Efficiency Modified Proposal Solicitation Package (PSP) for public comment.

The modifications were prompted by comments and concerns from agricultural, urban, and environmental stakeholders after the PSP was distributed in August.

The draft version of the Modified PSP is now posted on the DWR web site for public comment until October 29 (<http://www.owue.water.ca.gov/finance/>). Meanwhile, the draft version of the Modified PSP and public comments will be discussed with the CALFED Bay-Delta Authority (CBDA) on October 13-14, 2004.

DWR plans to release the Final PSP in its revised form by early November. PSP workshops will be held in Southern California, the San Joaquin Valley, and Northern California in December.

This is a modified PSP for public comment. Do not submit proposals at this time.

For additional information go to website:

<http://www.owue.water.ca.gov/finance/>

The Department of Water Resources operates and maintains the State Water Project, provides dam safety and flood control and inspection services, assists local water districts in water management and water conservation planning, and plans for future statewide water needs.
